# Your Career with INP

With energy into the future!

**We take responsibility  
for people, technology and projects**

## Who we are

INP International Projects is a global engineering and service company for process control and automation technology, energy, mechanical and welding engineering, thermal process engineering as well as for construction and infrastructure projects.

We support our customers with customized solutions, for example for more efficient energy generation and distribution, to meet the challenges of the energy transition.

We currently employ more than 500 people.

Are you looking for a future-proof job and interesting new challenges in an international company?

**We offer you many career opportunities,** whether you want to start your career with us as a graduate or as an experienced professional.

## Who we look for

### Senior Professionals

For all those who have already gained valuable experience in your profession: We offer you the opportunity to take on new, exciting challenges.

### Young Professionals

For all those who have two to three years of professional experience and initial specialist knowledge: With us, you can make full use of your ideas and creativity and take advantage of our wide range of career opportunities.

### Graduates

For all those who have just completed their training or studies and would like to work in the field of electrical, mechanical or control engineering or for the construction and infrastructure sector: We offer worldwide projects and numerous opportunities for further training.

**Choose us and become part of  
our large INP family.**

More than 500 people  
make **INP.**

# What we offer

## Financial benefits

Of course, salary plays an important role in your decision to take on a new job. With us, you will receive attractive compensation as well as Christmas and vacation bonuses and an employer-supported company pension plan.

## Career & further training

How you shape your prospects at INP is largely up to you: Your goals, ambitions and commitment. You have numerous opportunities to continue your education with us and acquire new professional skills.

## Work-life balance

Our flexible flexitime model allows you to accumulate overtime and compensate for it later with time off. We offer 30 days of vacation per year as well as special leave for personal life events.

## Health & Events

It is important to us that you can live not only a balanced work-life balance at INP, but also a healthy „body-balance“. That's why we offer the opportunity to participate in sporting events or free courses. And you can lease a company bicycle from us. In addition, INP organizes various leisure events for a good togetherness, such as barbecues, Family&Friends-Days, hikes, a big international Christmas party and much more. So if you want, you can also experience something together outside of working hours.
